

Your Name: \_\_\_\_\_ Group Names: \_\_\_\_\_

Topic: \_\_\_\_\_

**EARTH LANDFORMS  
SMALL GROUP PROJECT  
DUE DATE: \_\_\_\_\_**

Your job is to introduce and to "Teach" the rest of the class about your assigned topic. Each item in the checklist below is worth between 1 to 4 points. You will accomplish each task as a team and you will all turn in your own work for your own grade.

**POINT VALUES:**

4 points = WOW! You did a great job of covering this task and teaching us about your topic!

3 points = You really knew about your topic and we learned about your topic!

2 points = You left out some important information, but we learned a little about your topic.

1 point = You did not present enough information for us to learn about your topic.

**CHECK LIST:**

Check when the task is done	Your self-assessment	Teacher's assigned points	TASK
			1. List the important facts about your landform
			2. Create a graphic that will teach the class about your topic
			3. Write a summary about how people are effected by the changes your landform creates or by the impact it has on the lives of the people who live near it
			4. Give a historical timeline about your landform
			5. Present your information to the class as a group
	out of 20	out of 20	<b>TOTAL</b>
			<b>FINAL GRADE:</b> This will be determined by averaging your assessed score and your teacher's assessed score to create a percent.
